Profile

Master's student (M2) in Applied Mathematics and Data Science at Université Paris-Saclay, with two applied AI internships experience. Seeking a 6-month Data Science or Applied AI internship starting mid-April 2027.

Education

M2 Applied Mathematics – Data Science : Finance

2026 – 2027

Université Évry Paris-Saclay | ENSIIE Bicursus

Évry, France

Engineering Degree – Applied Mathematics

2021 – Present

ENSIIE (France) & ITC (Cambodia) – Double Degree

— ITC (2021–2024); ENSIIE (since 2024) : Engineering foundation year and M1 Applied Mathematics.

Experience

Techo Startup Center | Python, PyTorch

June – August 2026

AI Research Intern

Phnom Penh, Cambodia

- Developed and evaluated RAG and vision-language models for Khmer PDF question answering, with an interactive Gradio interface.
- Annotated 1,000+ tables using LabelMe and fine-tuned YOLO26s for row/column detection, achieving 98.53% mAP@0.5.
- Generated a benchmark of 892 Khmer tables and evaluated Surya OCR 2 for table structure recognition.

AI Farm Robotics | Python, PyTorch

May – August 2025

AI Engineering Intern

Phnom Penh, Cambodia

- Developed *SnapAI*, an end-to-end Khmer scene-text OCR pipeline combining EAST detection and PARSeq recognition.
- Applied LoRA fine-tuning, reducing EAST's trainable parameters by $24\times$ and achieving a recognition CER of 0.396.

Entrepreneurship Challenge (IMT Starter)

October – November 2025

Inter-school Entrepreneurship Project

Évry, France

- Collaborated in a six-member team to develop and pitch a startup project.

Projects

Credit Score Analysis and Risk Management | Python

September – December 2025

- Compared logistic regression, Random Forest, and XGBoost for credit default prediction using AUC and accuracy.

Regression Methods | R

September – December 2025

- Variable selection (AIC, Lasso, Elastic Net), class imbalance handling, applied to clinical and genomic data.

Skills

Technical : Python (NumPy, Pandas, Scikit-learn), PyTorch, R, SQL, C/C++, Git, LaTeX

AI & ML : Computer Vision, OCR, LoRA, YOLO26, RAG, VLMs, Gradio

Soft skills : Adaptability, Analytical thinking, Problem-solving, Teamwork

Honors and Certifications

France Excellence Scholarship

April 2024 – August 2026

Merit-based scholarship awarded by the French government

France

Languages

Khmer : Native English : C1 French : B2 (Bright Language Test)
